Murray Bridge

Howdi there everyone,

Hows 2020 treating you? I really hope all of our readers stayed safe during the recent fires that ravaged all parts of the State and Country. Please keep an ear out for any friends, family or neighbors that might be doing it a little tough or having a hard time because of the devastation.

The first rally of the year has been and gone, there's plenty more coming up, and yet again I find myself with more work than I care to think about. Hope this newsletter finds you all well, hope you have some projects to keep yourselves amused, and hope to see you at a rally, a meeting or just out and about in the near future.

I've been trying to think of a few good "general interest" outings that I can put forward to our club, if anyone has an idea please float it at a meeting or zap me an email and we can try make it happen.

Any how, Happy reading,

Cheers Jayme

UPCOMING EVENTS

From one extreme to the other

The truckload below was recovered from Yorke Peninsula The Trusses are 14m long and 3m high.

See the transformation of this Hart Parr, from paddock to pristine... Well Done PETER SAINT.

Yesterday's Power Rally at Milang

The 18th and 19th of January saw another Yesterday's Power Rally held at the Milang Oval. We had our usual spot underneath the trees and right by the gate. I arrived Saturday morning to find Jayme's TL McDonald and International Famous along with Nick's Fuller & Johnson and 4hp Austral already in the compound having been unloaded the night before. So I set about unloading my Lister Junior, Moffat Virtue, Ajax A-2 Pump and Pender Honey Pump. While I was unloading Bruce turned up with his Buzacott Farm Pumper, Buzzacott hit 'n' miss, Southern Cross diesel, pumps and chain display. Peter Saint turned up shortly after in his Ford pick-up with his 6 ½ HP Blackstone on its first outing. Clay also arrived in this time with his Holden Statesman, wooden Ski Boat and his Chev Buckboard being towed behind by Dave. Once everything was unloaded and fences were up it was time to start everything up. Before too long everything in the compound was running and the loud TL McDonald was attracting many onlookers. Daryl was set up in another compound with his engines across from us and Don was also across from us with his great display of a working windmill, three Farm Pumpers, McDonald engine and photo display. The weather for the day was perfect with the sun shining all day which made it a great day. The day went quick with many people coming and going stopping to look at our display and the big Upton Tractor driving backwards and forwards to the tractor pull. Before we knew it, it was time to shut down and a group of us headed off to the Langhorne Creek Pub for tea. Sunday morning saw cooler weather, and a light shower of rain must have passed through early as the road and some of the engines were still a little damp.

Everything was up and going once again, but the Austral and Blackstone were feeling the cooler weather with the Blackstone letting off a few loud backfires catching out unsuspecting onlookers and passers by. The Judges did their rounds and before too long it was time to start thinking about shutting down and heading to the presentation. Well done to Jayme, Don, Nick, Dave and Peter on taking home trophies. The club also won the best club display. It was a good weekend had by all as usual, with great weather and the rain holding off until I was heading away from the lake and towards home. Well done the Milang Club for hosting another great weekend out and thanks to all the members from the Club who put effort into displaying or even just coming for a look.

-Jack
